

Choosing Your Perfect Pumpkin!

Ready to find ***THE*** one? Here are a few tips to help you pick your perfect pumpkin:

Pick Your Size:

Big pumpkins are bold and impressive, which can be just what you need — but remember, they can be heavy and take extra work! Smaller ones are easier to handle and carve.

Choose Your Shape:

Everyone loves a perfectly round pumpkin, but don't overlook the quirky ones! Lopsided or bumpy pumpkins have tons of personality — just can also just turn the “bad” side to the back if you'd like. 

Match the Shape to the Face:

-  Tall & Skinny – Great for happy or scared faces!
-  Wide & Flat – Perfect for mean or grinning faces!
-  Round – Ideal for goofy or sad faces!

No matter which one you choose, your pumpkin will be uniquely yours!
